

New Source Review newspaper advertisements for construction permit applications, August 10, 2006. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: August 8, August, 9, or August 10, 2006. Public notices are generally published every two weeks. The previous publication of public notices was July 25 – 27, 2006.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction and/or modification of air contaminant sources as noted below. The proposed construction and/or modification is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is Rogers Group, Inc. with a mailing address of P.O. Box 25250, Nashville, TN 37202-5250. They seek to obtain an air contaminant permit (Division identification number: 01-0010-01/60011) for modification of an existing Rock Crushing Operation located at 250 Union Valley Road, Oak Ridge, TN 37830. This existing operation consists of a jaw crusher, cone crusher, screens, conveyors, crushed rock and sand stockpiles, and associated equipment used to produce gravel. Wet suppression is used for pollution control. The requested modification is to increase the hours of operation. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. J. Martin is the assigned Division person.

For the Anderson County “Oak-Ridger” --published once on or before Thursday, August 10, 2006.

The applicant is Lisega, Inc. with a mailing address of 375 Lisega Boulevard, Newport, TN 37821. They seek to obtain an air contaminant permit (Division identification number: 15-0092-01/59219) for a Surface Coating Operation located at the same address. This existing operation consists of a paint booth with exhaust filter control, and a grit blasting booth with fabric filter control. The permittee has requested to opt-out of being issued a major source (Title V) operating permit pursuant to Rule 1200-3-9-.02(11) of the Tennessee Air Pollution Control Regulations. They have agreed to emission limits of 9 tons per year for each individual hazardous air pollutant (HAP) and 24 tons per year for a combination of HAPs. Regulated air contaminants are emitted by this source. Mr. David S. Gosslee is the assigned Division person.

For the Cocke County “Newport Plain Talk”--published once on or before Thursday, August 10, 2006.

The applicant is DuPont Titanium Technologies with a mailing address of P.O. Drawer 219, New Johnsonville, TN 37134. They seek to obtain an air contaminant permit (Division identification number: 43-0007-73/60038) for modification of a Pilot Plant located at 1 DuPont Road, New Johnsonville, TN 37134. The requested modification is to begin using the pilot plant, which includes a natural gas-fired spray dryer, to produce a saleable product. A baghouse would be used for pollution control. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. M. Ahmed is the assigned Division person.

For the Humphreys County "News Democrat"--published once on or before Thursday, August 10, 2006.

The applicant is Indiana Hardwoods, Inc. with a mailing address of 915 Red Boiling Springs Road, Lafayette, TN 37083. They seek to obtain an air contaminant permit (Division identification number: 56-0002-13/60184) for construction a Wood Fired Boiler at the same address. This proposed operation would consist of one (1) 600 Hp wood-fired boiler used to generate steam for plant operations. A multi-cyclone would be used for pollution control. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. Stan Lodl is the assigned Division person.

For the "Macon County Times"--published once on or before Thursday, August 10, 2006.

The applicant is Edwards & Associates, Inc. with a mailing address of P.O. Box 3689, Bristol, TN 37625. They seek to obtain an air contaminant permit (Division identification number: 82-0249/60187) for modification of a Surface Coating Operation located at 157 Park Road, Piney Flats, TN 37686. This existing operation consists of three (3) spray booths and a sanding area, used for coating of helicopter parts. The requested modification is to relocate the existing operation to 450 Industrial Park Road, Piney Flats, TN 37686. Both facilities would continue to operate during the transition period. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. T. Blake is the assigned Division person.

For the Sullivan County "Bristol Herald Courier"--published once on or before Thursday, August 10, 2006.
